TWO-DAY WORKSHOP OUTLINE

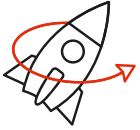

ADOBE CAPTIVATE FUNDAMENTALS

WORKSHOP OVERVIEW

Back in the day, e-learning courses were made by “the man behind the curtain.” Secret programmers with special, secret skills worked behind closed doors to build courses designed by us mere mortals.

Today, tools like Adobe Captivate prove that you can create a course that is visually rich, highly interactive, and customized to meet your instructional needs. You can do all of this without having to write a single line of code.

WHAT WILL YOU LEARN?

During this two-day, hands-on Adobe Captivate Workshop, you’ll learn everything you need to start creating interactive e-learning content. One of our e-learning experts will guide you through building a course in Adobe Captivate 2017 from beginning to end.

YOU WILL LEARN HOW TO:

- Create new projects.
- Add entrance/exit animations and motion paths.
- Create quiz questions
- Add and manage slides.
- Create actions and interactions.
- Create screen recordings and simulations.
- Add text, graphics, video, and audio.
- Work with variables and advanced actions.
- Customize the player.
- Edit object properties.
- Publish a course.

WHO SHOULD ATTEND?

This workshop has been designed for anyone who is just getting started with Adobe Captivate 2017. Although we don’t require any prerequisites for our Adobe Captivate Workshop, it helps to have a working knowledge of Adobe programs.

WHAT EQUIPMENT & SOFTWARE DO YOU NEED?

To attend this workshop, you will need a compute with an Internet connection, a mouse, and Adobe Captivate 2017 installed.
